## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

A plasma source comprising an electromagnetic wave generator coupled to an electric coaxial conductor comprising an outer conductor and an inner conductor defining an inner chamber therebetween; and an inlet for introducing a process gas into an interior chamber of the coaxial conductor and forming a plasma zone, wherein the inner conductor is displaceable.

Neither of the prior art of the record teaches or suggests a coaxial conductor coupled to an electromagnetic wave generator and a process gas inlet for forming a plasma between the inner and the outer conductors of the coaxial, *wherein the inner conductor of the coaxial is displaceable*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Parviz Hassanzadeh whose telephone number is (703)308-2050. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Mills can be reached on (703)308-1633. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Art Unit: 1763

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0661.
